SOCCER

General Betting Rules Bet Builder Soccer

In general: The Bet Builder is a bet that gives you the opportunity of combining several different selections (as listed analytically below) from the same event, in your bet slip. For example, in the supposed match MAN UTD – LIVERPOOL you can combine in: MAN UTD to win the match, MAN UTD to win over X corners, MAN UTD to score over X goals e.t.c. The football bet type selections that can be included in a Bet Builder bet are listed in detail in the Appendix below. The minimum number of bet type selection be included in the Bet Builder bet are 2 (two). There is no maximum number of bet type selections that may be included in the Bet Builder bet.

1.1 BetBuilder bets placed on Football apply to 90 minutes plus injury time, unless it is explicitly stated that the bet applies to Extra-time and/or Penalties. For all bets containing such wording, the remaining selections in the bet will be settled on the match (plus injury time) result, unless stated otherwise. Match officials determine whether the full 90 minutes and injury time is to be played or has been played, all bets are active unless the match is deemed as abandoned (please refer to 1.7).

1.2 Any reference to 'bet' refers to the entire contents of a BetBuilder betslip. Any reference to a 'selection' is in reference to one selection within the related bet. A BetBuilder bet is the aggregate bet comprised of all constituent selections.

1.3 If a player in the bet does not take any part in the match, then the whole bet will be made void, regardless of the rest of the selections within the bet. This rule refers to any player related markets involving both goals and cards. Please refer to section 2 for related player selections.

1.4 If all the selections within the bet are valid (all players involved within the bet take part within the match), any losing selection within the bet will deem the entire bet a losing bet.

1.5 For any obvious pricing errors, we reserve the right to cancel/void any bets placed at that wrong price. We also reserve the right to cancel/void any bets on events where the venue is changed after the publication of odds.

1.6 All markets will be settled on the result of the match on the day that it is played and completed. Any results that are changed retrospectively, for example: dubious goals panel reviews, results reversed for ineligible players, will not alter the settlement of the bet.

1.7 If an event is abandoned, any selections where the outcome has already been decided e.g. half-time result or first team to score, will stand. All other selections will be made void regardless of the score-line at the time of abandonment. Abandoned matches deemed to be matches which do not reach their natural conclusion by midnight local time. Matches where a referee removes the players from the field of play for a temporary period, but the remaining minutes of play take place by midnight local time on that day will not be deemed as abandoned.

1.8 If an event is postponed before the kick off and subsequently rescheduled to be played less than 48 hours from the original kick off, all bets will stay active and will be settled upon the result of the rescheduled event. If an event is postponed before the kick off and subsequently rescheduled to be played more than 48 hours from the original kick off, all bets will be voided.

1.9 For matches played at a neutral venue, all bets will still count regardless of the order the teams are listed and whether we have indicated it is as being played at a neutral venue (except in the situation of an obvious pricing error, please refer to 1.5).

2. Periods

2.1 All below periods (2.2-2.7) are periods that can be taken with markets (3.1-3.22). For example, a bet containing: 90mins (2.2) period with Who will win? (3.1), you are betting on the result over the entirety of the match (90 mins plus injury time), the entirety of the match (90 mins plus injury time).

90 mins – This refers to the entirety of the match. All bets involving 90 min selections apply to 90 minutes plus injury time.

1st 10 mins – This refers to the first 10 minutes of the match (00:00 and 09:59).

1st half – This refers to the first half of the match only, including any injury time minutes played within it.

2nd half – This refers to the second half of the match only, including any injury time minutes played within it.

Each half – This refers to an event happening in both halves of the match. If the chosen event happens in neither half or within only one of the halves this will be deemed a losing selection.

*** For any 'each half' period player related bets, if the player is to participate in any part of the first half then this selection will stand. If they are not to participate in the first half, then this selection will be voided.**

Either half – This refers to an event happening in one, or both halves of the match. If the chosen event doesn't happen within the match this will be deemed a losing selection.

*** For any player related bets in relation with 'either half', if the player participates at any point in the match then this selection will stand. If they are not to participate in the match at all then this selection will be voided.**

Motor Sports

GENERAL RULES:

R1. All the bets are paid according to the official place on podium and whatever changes are implemented thereafter due to, for example, punishment will be ignored. Whenever there are no podium places all winnings will be paid according to the Federation Internationale de L'Automobile (FIA) for Formula 1, FIM and other official federations of regulations. These rules cover F1, MotoGP, German DTM, WTTTC, Superbike, Supersport and Trial.
 R2. Bets are valid even when the contestant has not taken part in the race. The race is considered to have started with the beginning of lap formation. If a race stops and restarts all bets are valid even if there is a change in positioning.
